Assignment:Evaluation Ability

Task:

Please share the **PDFs of your previous four assignments** with your classmates and evaluate **each assignment, including your own**. After completing the evaluation, please send me the score sheet.

In the score sheet, please include the following for each assignment:

- **Student ID** (instead of the student's name)
- **Assignment Number**
- **Score** out of 10
- **Justification for the score**
- **Strengths** of the assignment
- **Weaknesses** of the assignment
- **Suggestions for improvement**

Please remember that **each assignment carries 10 marks**. Your feedback should be constructive and specific so that your classmates can understand their weaknesses and improve their future assignments.

Please keep your evaluations confidential unless you are confident that sharing your honest opinions will not negatively affect your relationship with your classmates.

Instead of asking you to share your evaluation directly, **I will share your feedback with the respective students while keeping your identity confidential.**
